

TINKD

MAKERSPACE

Tinkd Makerspace offers a range of beginner, hands-on, taster activities for young people to have a go, learn and create. Using our computers and equipment come and try out from the following.

Laser Cutting | 3D Printing | Vinyl Cutting!

What's on offer

- An opportunity for a unique EOTC.
- Participants have a chance to try specialist equipment in the Makerspace.
- Self-guided step-by-step instructional sheets provided, with Tinkd staff to help and support when needed.
- Sessions are for up to five participants and last up to two hours (we can discuss larger groups).

**Sessions are only
\$25 per person
(includes all materials)**

How it works

- Choose one activity for the entire group.
- Contact us to book a date and time that suits.
- A minimum of one adult supervisor must accompany a group of 5 participants.
- Participants are encouraged to work independently, with help provided by a Tinkd coordinator when needed.
- All participants leave with an item they have created, having learnt new skills and with a sense of achievement.
